P.O. Box 2143
Main Post Office
Washington, D. C.

Dear Bob,

We forward our cost estimates for three (3) Versatile, High Precision Stereoscopic Viewers in accordance with proposal Number 552A, to include rigidized cast frame, 16 ft. loop minimum, movable controls console from left to right, step motor drives, additional lens in each turret. A laser film marking system will not be furnished. Motorized film drives or encoders for measurement are not furnished.

Estimated cost includes instruction books, bi-monthly progress reports and delivery to your Washington facility.

The cost per viewer is [REDACTED] firm fixed price, each in quantity of three (3) with a delivery of eight (8) months for the first unit; 9½ months for the second unit; 12 months for the third unit, after receipt of authorization.

Schedule #1 (attached to enclosed estimate): Purchased parts per unit is a revised list based upon the design parameters and actual cost quotations received for project 552. All previous quotations concerning these viewers are void.

Very truly yours,

ARB:dab
